# SLALOM RACE SUIT FOR ATHLETES WITH ONE LEG

BY KRISTOFER THORGRIMSSON

## ATHLETE INSIGHT

### HILMAR SNÆR

- 22 years old
- World para gold medalist
- Two times paralympian
- Sport Class LW2
- Left leg amputated at knee
- Skis on right leg with outriggers

“Turning to the right is harder than turning to the left.”

“Skiing on one leg doubles the load on my right knee.”

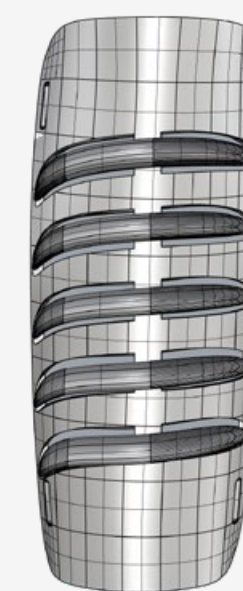

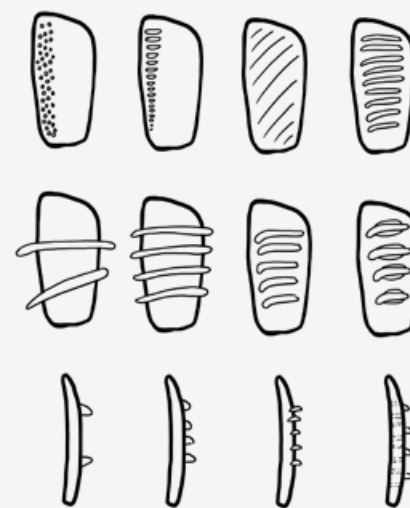

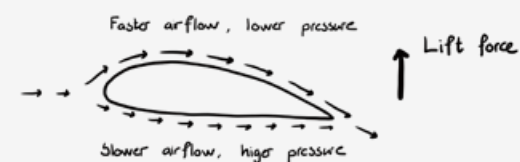

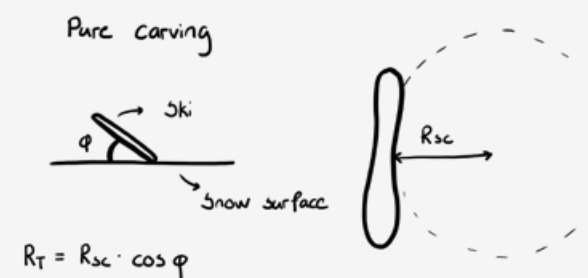

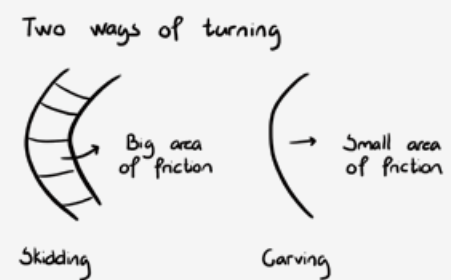

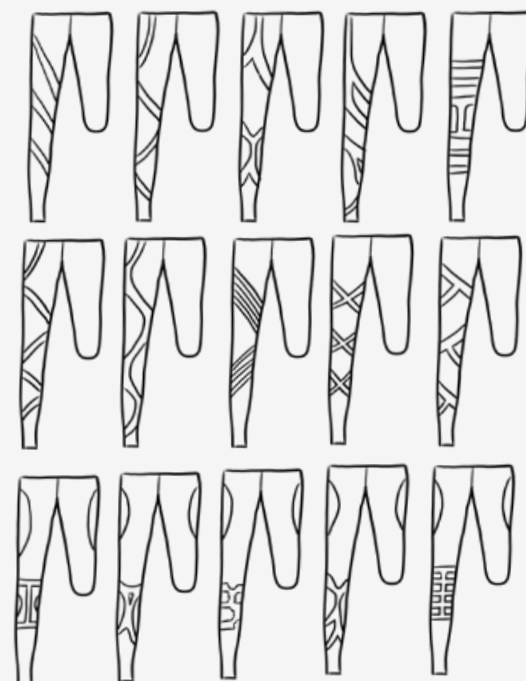

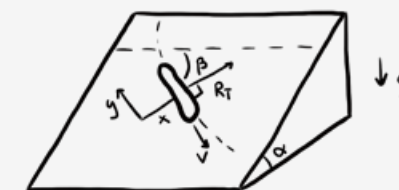

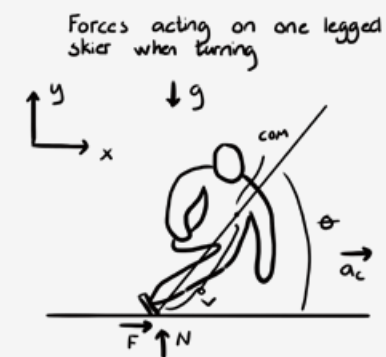

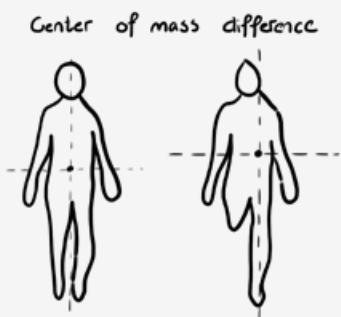

# PROBLEM STATEMENT

**HOW COULD THE RACE SUIT HELP MALE  
ATHLETES WITH ONE LEG MAINTAIN THEIR  
SPEED THROUGH THE SLALOM CURVES &  
PROVIDE THEM WITH BETTER PROTECTION,  
TURNING ABILITY AND STABILITY?**

# DESIGN PROCESS

# FEATURES & BENEFITS

Internal padding for protection

Tight fit for better aerodynamics

Support at knee for better stability and balance

Attachable shin guards  
for protection when  
navigating past the poles

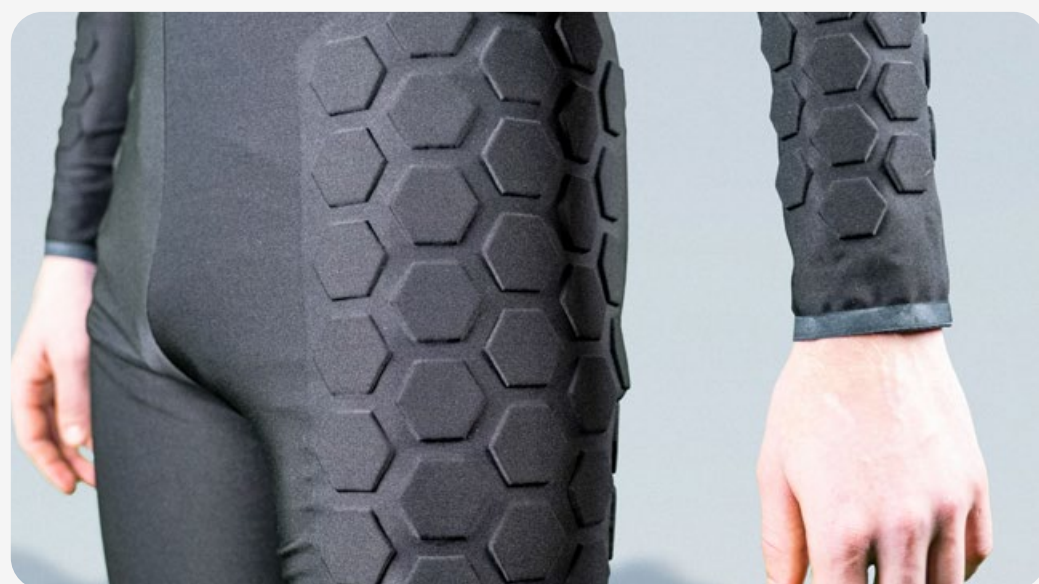

Slanted airplane structure on  
shin guards to create lift and  
make turning to the right easier

# FINAL PRODUCT

ROBOT FLEECE

ROBOT FLEECE

ROBOT FLEECE

## NARRATIVE

IN DISTANT FUTURE HUMANS HAVE LEFT EARTH BECAUSE OF POLLUTION AND RESOURCE DEPLETION. BEFORE THEY LEFT THEY CREATED AN ARMY OF ROBOTS TO TAKE SOIL SAMPLES AND COLLECT VALUABLES.

# LIGHT UP YOUR LIGHT WITHIN

Running in the heat and direct sunlight for long time can drain your energy.

Switching your perspective to the sun giving you energy can boost your mindset for success.

The outfit mimicks this mindset by gathering and protecting you from the UV during daytime and shining in the dark for guidance and visibility at night.

The green and cream colors are inspired by nature and act as a reminder to stay grounded when things get tough.
